The relevant requirements of the NT_Education_Hub:

Student Portal:

1) Students can view Attendance by Monthly calendar + summary (present/absent/late/excused)

2) Students can view the exam and list upcoming exams with subject, date/time, venue, duration, exam marks.

3) Students will get their results View term/subject results with component breakdown, totals, grade/GPA, result status.

4) Students shall see their fees, view fee ledger (charges, concessions, payments, balance), due dates, fine, discount, paid/unpaid status.

5) Students can see the Notices board View school/class/category notices; mark read; open attachments/links.

6) Students can see their homework list & details (subject, assigned, due, instructions, attachments). And also see **submission status.**

User stories for Student Portal:

User stories 1: Display the name and role of the students
As a student, after login to the student portal, I will see my name and roll number into the dashboard.

User Stories 2: View monthly attendance
As a student, I want to see my attendance on a monthly calendar, so that I can understand my day-by-day status.

User stories 3: View upcoming exams list
As a student, I want to see a list of upcoming exams, so that I can plan my study.

User stories 4: Select term and view results
As a student, I want to select a term and view my subject results, so that I see my performance for that term.

User stories 5: View fee fees & balance
As a student, I want to see my fee ledger, so that I know charges, concessions/discounts, payments, and balance.

User stories 6: View notices list
As a student, I want to see a **notice board** with **school/class/category** notices, so that I stay informed.

User Stories 7: View homework list
As a student, I want to see my **homework list**, so that I know what is due.
